

HR Employee Attrition

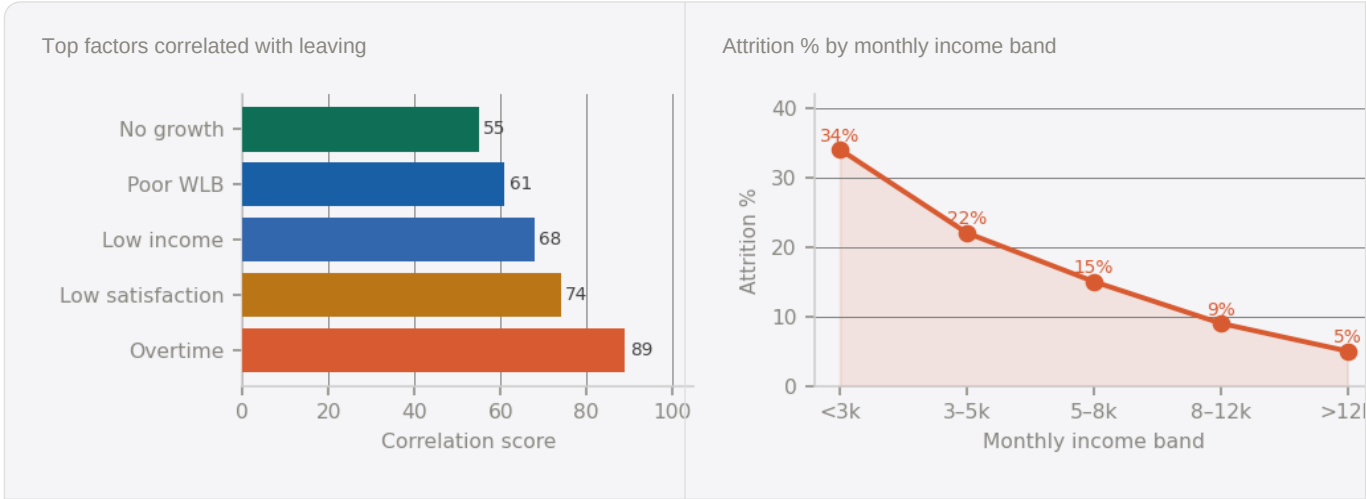

Interactive Report | SkillCraft Technology | Task 03

Total Employees	Attrition Rate	Avg Tenure (left)	Top Risk Dept	Left Count
1,470	16.1%	3.2 yrs	Sales	237

Attrition by Department & Age Group

Key Attrition Factors & Income Analysis

Key Findings

- Why are employees leaving?** Overtime is the single strongest predictor — employees doing overtime have **3x higher** attrition risk.
- Sales** has the highest department attrition at **21%**, driven by overtime pressure and low income relative to targets.
- 18-30 age group** churns at **26%** — nearly 3x the 46+ rate. Early-career development and growth paths are critical.

Income is a strong lever: employees earning under \$3k/month leave at 34% vs only 5% for those earning above \$12k.

R&D; attrition (14%) is driven by lack of growth opportunities, not income — mentorship and L&D; investment can reduce it.

Department Summary Table

Department	Total	Left	Attrition Rate	Avg Tenure	Top Factor
Sales	446	94	21.0%	2.8 yrs	Overtime
Research & Dev	828	114	13.8%	3.6 yrs	No Growth
HR	196	38	19.4%	3.0 yrs	Low Satisfaction
Overall	1,470	237	16.1%	3.2 yrs	Overtime
